The industry's best at a competitive price

Automatic Door Systems offer a wide range of innovative options from hospital entrances to Shops, Retail Units, Offices, Schools, Libraries, Doctors Surgeries, nursing and care homes. These can be sliding or swing doors

UK Shopfronts (U.K.) Ltd. are committed to providing solutions to adhere to the **Equality act 2010**. Increasingly we are automating existing manual doors in nursing homes, care homes and private dwellings to accommodate for disabled persons. This allows tenants to gain access into the premises and to areas of the building without being restricted by manual doors.

Designed with safety in mind, all our automatic doors comply with **British Standard BS7036** and **EN16005**. Designed and installed to meet the need of a high volume of pedestrian traffic and buildings needing to comply with the Equality Act 2010 (inclusive of the former Disability Discrimination Act) requirement

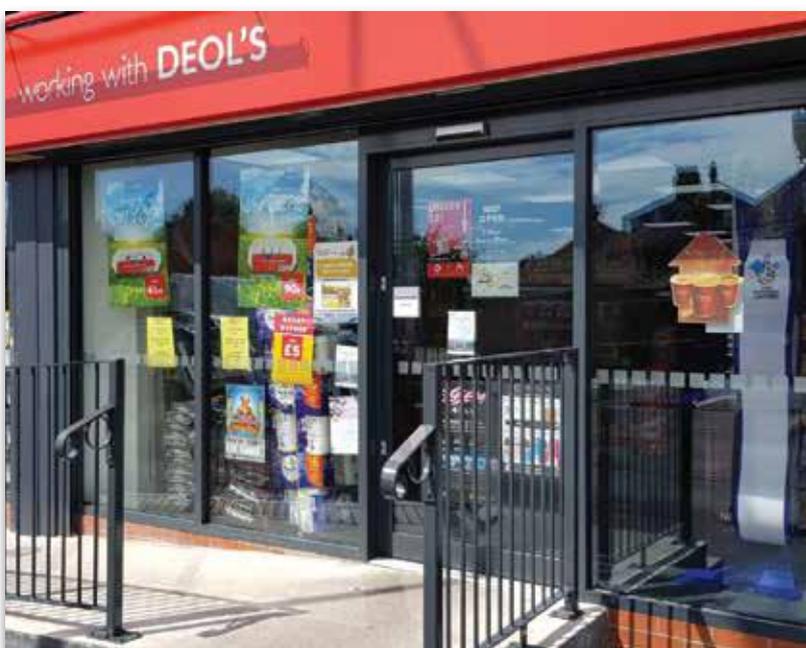

Hugh range of options

The range of automatic doors we can offer as standard are:

- **Single Sliding Doors**
- **Bi-Parting Doors**
- **Telescopic Doors**
- **Single Swing Doors**
- **Double Swing Doors**

Special options we offer include:

- **Revolving Doors**
- **V shaped Bi-parting Doors**
- **Curved Sliding Doors**

Better design and better made

Every client has their own specific requirements and our team of technical representatives will discuss and advise on the best solutions for the individual application by:

- » Completing a comprehensive on-site survey
Tailoring a bespoke package taking into account site requirements, specification and budget.
- » Issuing a detailed proposal and quotation including scaled CAD drawings and interface details
- » Continuous liaison with the client throughout the manufacture and installation process
- » All our installations are carried out by fully trained and experienced engineers and with competitive Preventative Maintenance & Repair packages available, you can rest assured that your security is in safe hands.

For more information please contact our sales team on **0333 666 0174**

Technical Sales & Support

Every enquiry is handled by our dedicated technicalsales team who are focussed on providing the best and most cost effective solutions quickly and efficiently.

For every order we appoint a job manager who arranges all material, engineer and Health & Safety resources and scheduling required to carry out the work on time and on budget. Our in house team handle all Phone Calls and E-mails to ensure the smooth running of every job from first contact to completion.

A site meeting with appoined jon manager is held to review the work, confirm site details, to determine site restrictions and hazards, and plan dates for the work.

Our professional admin team of long serving and motivated site engineers provide a reliable service delivery of confidence and attention to detail.

Turn your dream custom design into reality !!
